

We Deliver Medical Equipment Packed with Innovation, Inspiration and Reliability

We harmonize the technical expertise cultivated over our 60 years in business with the real voices we have captured as a member of the medical field, to provide reliable, highly usable medical equipment.

DS-1000

Introduction to products already deployed or considered for deployment overseas

The wall-mounted DS-1000 suction unit is easy-to-clean, hygienic, and has a design that blends naturally in a hospital room. The infection-controlling disposable bag is common to the portable suction unit, reducing the workload of busy healthcare professionals.

Minic Series : Portable Suction Unit

For inquiries or business meetings

- Hospitals, clinics, nursing care facilities
- Medical device distributors
